The great Capitol, agreed the great thousand lights.

Before he left the People's House Mr. Sulzer made a long, sad tour of its many rooms. He stood a moment in the great told. The former Governor managed to climb into his car, to find himself alone, 80 far as the party that had started with him from the Executive Mansion was concerned.

"Where is Mrs. Sulzer," he asked, while men and women tried to get close to shake mands with him.

All this time Mrs. Sulzer had been trying to make her way through the overflow of the crowd by a side passage to the street. She was recognized by but a covernor holds forth as long as he could

Finally after ten minutes wait Mrs. Sulzer reached her husband's automobile and Mr. Sulzer helped her in. Curly and Patsy got places of honor and when the Sulzer baggage afrived the procession started off down Forty-second street to Broadway and to the Broadway Central Hotel, where Mr. and Mrs. Sulzer will make their home and have their campaign headquarters for the present.

The automobile that carried the Sulzers to the station—it was the same official Highway Department car, No. 285, 'that they always used—pulled up in a dark corner between a rickety hack driven by an aged negro and a hotel bus. Mrs. Sulzer got out and went through a baggage room to the platform. Her husband stayed where he was. When reporters found him there later he was stiting huddled up in a corner, overcoat turned up about his neck and nearly meeting the black slouch hat which was pulled down to his ears. He looked straight ahead into the darkness.

"Have you anything to say before you go, Governor?" some one asked him. He did not turn or answer.
